BEVERAGE PRE-FORMS

Soft drinks, Alcohol and Dairy

As one of the largest converters of PET resin in Southern Africa, we focus on the supply of pre-forms to the region's beverage industry and their bottling plants in Africa and the Indian Ocean Islands from our manufacturing sites across South Africa, Mauritius and Zambia. Our diverse customer base has required Boxmore to develop a wide range of pre-forms in various neck finishes and standard colours. Our pre-forms are available in a wide range of standard colours but customised colours are possible for larger customers. To compliment our range of pre-forms, we also have a wide range of plastic beverage closures. See our Beverage Closures catalogue for more.

28mm 1881

length (mm)
